

A Sample Document with Deliberate Errors

Test Author

March 12, 2026

1 Introduction

This is a sample document designed to produce various kinds of LaTeX warnings and errors for testing the log parser.

This text references `which` which does not exist.

This text is way too long to fit in a 2cm box and will cause an overfull hbox warning in the log file.

2 Math Errors

The value of x is approximately 3.14 and $y = \sqrt{2}$.

$$E = mc^2$$

3 References

See Section ?? for details.

As shown by [?].

4 Overfull Boxes
